CHANGES TO:

"Fully Spaced Class A Stations" List
and

"Newly Grandfathered Class A Stations" List
and

Fee Requirements For Class A Stations Filing Form 302
Re: MM Docket No. 88-375

In a Public Notice released November 3, 1989 (Mimeo No. 451), the Commission attached two lists, entitled, "Fully Spaced Class A Stations" and "Newly Grandfathered Class A Stations" of Class A FM stations that could begin operating with increased power on December 1, 1989, provided that the conditions specified in the Public Notice were met. These lists were published as a result of the rules adopted in the Second Report and Order in MM Docket 88-375, 54 Fed. Reg. 35335 (August 25, 1989).

This Public Notice contains corrections, additions, and deletions to both lists. These changes consist of, but are not limited to, the following:

- (1) Correcting ERP or HAAT values.
- (2) Adding stations which became fully spaced for various reasons.
- (3) Deleting stations from the newly grandfathered list that were already short spaced under the old rules and thus were not "newly grandfathered" under the new rules.

Stations on these lists are authorized to increase power without the need of first obtaining a construction permit PROVIDED that the changes to the station's facilities are limited to those specified in the November 3, 1989 Public Notice and that all other conditions specified in that Public Notice are met. All other Class A stations

seeking to change their facilities must first obtain a construction permit to do so.

In the November 3, 1989 Public Notice we stated that the appropriate filing fee must accompany the FCC Form 302. However, after further review, we have concluded that A FILING FEE IS NOT REQUIRED FOR THOSE STATIONS FILING FORM 302 PURSUANT TO THE PUBLIC NOTICE WHERE A CONSTRUCTION PERMIT IS NOT REQUIRED. All stations filing Forms 302 in conjunction with outstanding construction permits must pay the filing fee. If a fee is not required, the Form 302 and the supplemental environmental exhibit must be filed with THE OFFICE OF SECRETARY, Room 222, 1919 M St. N.W., Washington, D.C. 20554. If a fee is required, the Form 302 and the supplemental environmental exhibit must be filed with The Fee Section, Room L-18, 1919 M St., Washington, D.C., 20554.

Questions regarding the generation of these lists should be directed to Gary Kalagian (202) 632-2049. Questions regarding the Second Report and Order should be directed to Bernard Gorden (202) 632-9660.
